PROFESSIONAL EXPERIENCE

Coupang - Senior Frontend Engineer L5 | December, 2024 - Present

- Leading the frontend development for the Fraud Operations team, overseeing the migration of legacy code from AngularJS to React.

Flipkart - UI Engineer- II | September, 2021 - December, 2024

Cleartrip - Flipkart Group (January, 2022 -Present)

- Led the transformation of a legacy desktop and mobile web application to a Server-Side Rendered (SSR) UI architecture using Next.js, significantly improving performance and maintainability.
- Architected and implemented core components of an Extranet B2B platform tailored for the hotel vertical. This platform facilitated seamless onboarding of hotels onto Cleartrip, enhancing operational efficiency and scalability

Flipkart Wholesale (September, 2021 - December, 2022)

- We built msite(mobile web app) for Flipkart's Wholesale B2B consumer-facing platform with active involvement in all product decisions.
- Developed and owned GLUE an in-house CMS tool responsible for generating server-driven UI for consumer-facing platforms(iOS, Android, and msite)

Stacks: React Native, React Native Web, Next.js, Redux, Gatsby, Prisma, MySQL
